

Easy fabrication and construction  
Bridge for short and medium span

# Modular Plate-girder Bridge

## Technology

### Module system for plate-girder bridge

**Components :** Girder module + Cross-beam connection module

**Target :** 30~50m Span bridge (Simple or Continuous)

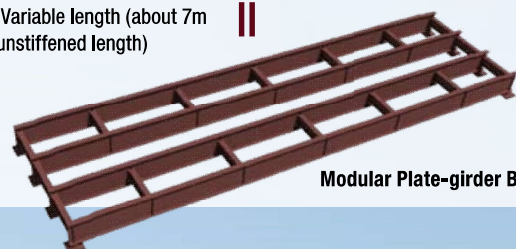

Girder Module

- BH (Built-up H-section) without stiffeners
- Variable length (about 7m unstiffened length)

Cross-beam connection module

- Main girder BH + Cross-beam BH + Stiffener
